APPROVAL & CERTIFICATION

FIG. 1
 I hereby certify that I am the owner of the property shown and hereby agree to the terms and conditions of this plat and to the fact that the plat is a true and correct copy of the original as shown to me.

FIG. 2
 I hereby certify that the plat shows and describes the same in true and correct accordance with the original as shown to me.

FIG. 3
 I hereby certify that the plat shows and describes the same in true and correct accordance with the original as shown to me.

FIG. 4
 I hereby certify that the plat shows and describes the same in true and correct accordance with the original as shown to me.

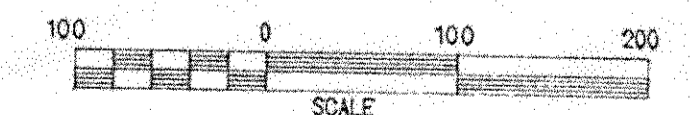

"Approval is hereby granted for lots 801-804 defined as Lone Mountain Shores Phase 8, in Claiborne County, Tennessee as being suitable for subsurface sewage disposal (SSD) with the listed or attached restrictions."

Prior to any construction of a structure, mobile or permanent, the plans for the exact house/structure location must be approved and an SSD system permit issued by the Division of Ground Water Protection. Water taps, water lines, underground utilities and driveways should be located at the side property lines unless otherwise noted. Any cutting, filling or alterations of the soil conditions may void this approval.

J. C. Carter
 Environmental Specialist
 Division of Ground Water Protection
 9-21-01
 Date

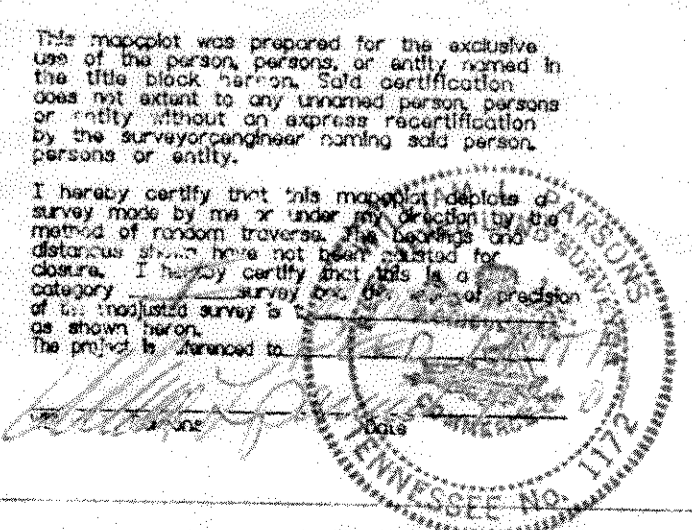

With proper location of structure(s), utilities and driveways outside the taxable soils area lots 801-804 are approved for a standard individual subsurface sewage disposal system (SSD), serving a maximum of 3 bedrooms. Lots have a designated area(s) soil mapped for the SSD system. Any disturbance in this area may void the approval. Lots will require surface water protection.

Common drive easements are private easements to be maintained by the property owners of the lots that said easements traverse and shall never become a county road or be maintained by Claiborne County.

Approval is hereby granted for lots 805, 806, 808 and 817-820 defined as Lone Mountain Shores Phase 8, in Claiborne County, Tennessee as being suitable for subsurface sewage disposal (SSD) with the listed or attached restrictions.

Prior to any construction of a structure, mobile or permanent, the plans for the exact house/structure location must be approved and an SSD system permit issued by the Division of Ground Water Protection. Water taps, water lines, underground utilities and driveways should be located at the side property lines unless otherwise noted. Any cutting, filling or alterations of the soil conditions may void this approval.

DeLette Parson
 Environmental Specialist
 Division of Ground Water Protection
 Date: 9-21-2001

With proper location of structure(s), utilities and driveways outside the useable soils area lots 805, 806, 808 and 817-820 are approved for a standard individual subsurface sewage disposal system (SSD), serving a maximum of 3 bedrooms. Lot 808 soil mapped area has been surveyed. Lots have a designated (area's) soil mapped for the SSD system, any disturbance in this area may void the approval. Lots will require surface water protection.

Form for Final Plat Certification, including sections for: Surveyor's Declaration, Client's Declaration, and other legal notices. Includes signatures and dates.
