2011 WHO'S WHO AMONG GENERAL & SPECIALTY SERVICE CONTRACTORS

Dana Myers, MANAGING EDITOR

Trade Show Executive's 9th Annual Directory of Who's Who Among General & Specialty Service Contractors continues to provide our readers with valuable data and contact information on the most active service contractors in the U.S. This year, there are 320, including 81 general service contractors and 239 specialty contractors, including 31 listings in a new category for Mobile Application providers.

Search any of our 28 categories to find new service contractors or updated contact information for those already familiar to you. We've provided phone, fax, website, e-mail address and the top officer for each company. Each entry in *TSE's Who's Who* directory has been updated and verified to reflect any changes during the past year in personnel, contact information and other key data.

Additionally, a total of 30 companies provided details for expanded listings that contain key facts and figures about their businesses: How many shows do they expect to service this year? In how many major cities do they have offices? Who are their major clients? *TSE's*

Who's Who Among General & Specialty Service Contractors directory provides the essential info you'll need to make good business decisions. Let us know if there are other service companies or service categories that belong in this directory. We value your input.
